High Performance Chemistry™ for Anti-Fog Applications

FSI Coating Technologies takes anti-fog coating durability to a whole new level. This innovative technology combines premium anti-fog performance with superior abrasion, chemical and impact resistance, capable of performing in the harshest environments. These highly stable coatings also deliver unprecedented water sheeting characteristics.

Proven Reputation in the Industry

With more than 31 years of innovation expertise, FSICT's proprietary technologies transform the durability and appearance of instrumentation, eyewear and vision protection devices.

Patented Technology

Harnessing the power of proprietary nanotechnology, the FSICT Anti-Fog Product Suite is uniquely formulated to meet the demanding standards of military applications as well as those of the transportation, sport, safety and sunglass markets. Capable of passing the rigorous environmental tests of today's manufacturers, these anti-fog solutions are compatible with glass, PC, and other plastic substrates when used with an FSICT primer.

These revolutionary products provide an exceptional water washable, anti-fog surface, have a long shelf-life, are easy to use, and require no pre-mixing.

PERFORMANCE FEATURES

- Delivers best-in-class abrasion, chemical and impact resistance
- Excellent environmental durability and anti-fog performance
- Exceptional compatibility with glass, PET film, PC & other plastic substrates
- Meets demanding industry test requirements

PRODUCTION BENEFITS

- Long product service life and product stability reduces the need for frequent tank change-outs
- High quality Anti-Fog products streamline manufacturing, enhancing yields and profitability
- Access to FSICT's Global Technical Support Team for all product validation and application requirements
